

# THE SKILLS + PROJECT

The SKILLS+ project aims to improve the competitiveness of micro-enterprises in ICT sector by introducing a soft skills development programme, and to encourage sustainable development of these companies.

## Main challenge, Key Success and Enabling Factors

- A complete web based platform where participants, once logged in, performs the formative path with in short periods of time and on their way, investing the time they want to reach the skills proposed.

## Lessons Learnt and Recommendations

- The feedback get from the participants shows the methodology used was well understood, easy to use and effective. Some conferences and /or chats with mentors would be a good improvement.
