

E-LEARNING PLATFORM

A lot of materials can be delivered to students before the lecture. We are using Moodle based platform which is adjusted according university needs.

It's name is WIKAMP. It allows not only to provide the online courses but also serves as a folder for materials for students.

There is need to prepare quizzes or test, including exams. There is a special module called webinary to prepare remote lectures.

Main challenge, Key Success and Enabling Factors

- We are using Moodle based platform which is adjusted according university needs;
- It allows not only to provide the online courses but also serves as a folder for materials for students;
- There is need to prepare quizzes or test, including exams;
- There is a special module called webinary to prepare remote lectures.

Lessons Learnt and Recommendations

- Using WIKAMP we make our teaching more interactive by letting the students actively participate;
- The system allows us to record progress of students and evaluate their knowledge;
- Tool is complicated and only few teachers are using it.
