

Item	Content (1 page maximum)
Introduction	Interactive lecture
Type of institution involved	university
Title of the methodology used	Lecture
Type of educator	Teacher
Tool/tools used	Menti, mentimeter (https://www.mentimeter.com)
Main Challenges, Key Success and Enabling Factors	Lecturers are asking the question during the lecture but usually only few students follow and respond. The online system like Mentimeter enables to present the question on the slides where the Access Code is presented. Each student using this code can answer the question and the final responses are presented to all students.
Lessons Learnt and Recommendations	Using Mentimeter you make your teaching more interactive by letting the students actively participate in lectures. Moreover you can use Mentimeter as a formative assessment tool.
Country	Poland
Name of the Institution/ Education Center	TUL
