

Item	Progetto G.I.S.: Digital Lessons
Introduction	<p>The GIS, School for the Innovation of the School, was born in 2006 following the project started in the school year 1997-98 by the Province of Turin, with the aim of developing innovative teaching methodologies.</p> <p>The group consists of teachers who gravitate on the territory of the Metropolitan City of Turin and who intend to share goals and activities and collaborate in a research-action perspective and continuing education.</p>
Type of institution involved	Secondary school of I ° and II ° degree of the regional territory of the Piedmont
Title of the methodology used	The course uses the method EAS (Episodes of Situated Learning??) in the belief that working with the technology can work, if you adopt a proper method.
Type of educator	Educator
Tool/tools used	The course will take place on the Fidenia platform connected to Google Drive
Main Challenges, Key Success and Enabling Factors	A short course to realize digital lessons in the humanistic field in which the cultural tradition is enhanced by innovation. The workshops are proposed with a strongly operative cut to allow teachers to add new digital skills to their professional skills. The delivery method is blended, with both lessons and with small distance activities.
Lessons Learnt and Recommendations	The recipients are the teachers of secondary schools of the first and second level of the regional territory of Piedmont.
Country	Italy
Name of the Institution/Education Center	<p>PROGETTO G.I.S. - CE.SE.DI.</p> <p>For teacher training: "Towards the school learning community"</p>
