

The project ucha.se contains more than 14000 video lessons and tests compliant with the official Bulgarian educational program. The materials are elaborated in a way to strictly connect to the state learning program and the schoolbooks. There are video lessons for all school grades and all subjects: mathematics, literature, grammar, physics, history, biology, geography etc. The website has sections for teachers and for students and parents. It contains also the functionality for students to ask questions about the lessons and get answered by teacher.

Main challenge, Key Success and Enabling Factors

- Present a completely innovative multifunctional teaching tool
- Create a new way of presenting the learning material
- Promote the change of the teaching / learning process through the use of new technologies
- Promote innovative teaching methods

Lessons Learnt and Recommendations

- The tool is still in a development phase. Results and feedback will be present in 2020
